

International

For the past 10 years, more than 50% of TRA-C Industrie's turnover has come from outside France and through international projects.

TRA-C Industrie is highly experienced in knowledge transfer and technical assistance in Asia, Africa and Europe.

TRA-C Industrie has developed partnerships with multinational companies to expand its presence outside Europe :

- Factory installation and production start-up for metallurgy.
- Technical assistance for production operators in several different fields
- Technical training

A worldwide presence...

Know-how, development, flexibility, mobility, quality...
