

INDUSTRIAL PRODUCTION & SERVICES

OUR OFFERS :

TRA-C industrie supplies sub-contracting services in serial production for different industries and adds values to niche market of high class quality.

Sub-contracting sheet metal, mechanical machining, and welding assembly parts in serial production.

Prototype and manufacture products of stainless steel, carbon steel, aluminum, and special alloys.

Qualifications in specialised welding according to EN ISO standards – a real quality insurance.

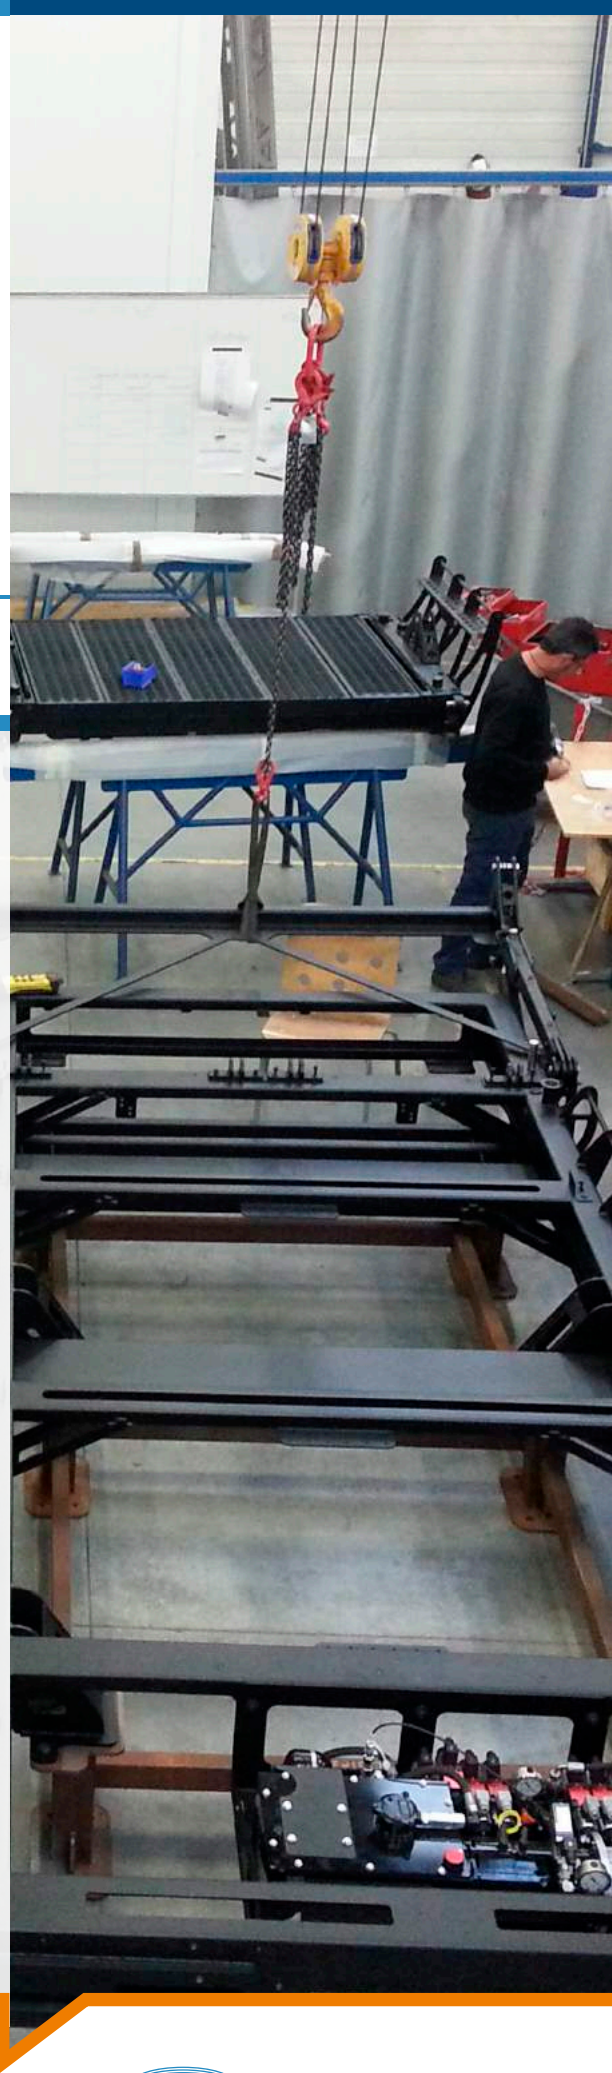

On-site maintenance services.

MANUFACTURING COST OPTIMISATION...

QUALITY IMPROVEMENT...

WORLDWIDE EXPERIENCE...

CERTIFICATIONS

ISO 9001 Design-engineering, production engineering, project management & manufacturing of mechanically-welded automated assemblies

EN ISO 3834-2 Welding Quality System

EN 15085-2 CL1 Welding of railway vehicles and components

EN 1090-1 Execution of steel structures and aluminum structures

REFERENCES

- Stainless steel electric cabinets for railway.
- Aluminum fuel tanks for special cars.
- Assault ladders for defence.
- Simulation cabins for training.
- Lifting systems for nuclear plants.

OUR MEANS

- Qualified personnel in sheet metal work, boiler making, mechanics, welding, hydraulics and automation.
- IWP-IWS & IWT welding experts, IWE engineers
- Machines : FSW machines, laser cutting, robotic and manual welding means, 3D control, metal cutting, bending machines, CNC machining, etc.

COMPLEMENTARY METALWORKING SOLUTIONS
FOR ALL HIGH-CLASS INDUSTRIES
